

Let's think and answer

Q1.How do we know that Sonsung loved Nature?

Ans1.We know that Sonsung loved Nature because she would look at the trees and talk to them. She loved the satin silk touch of flowers. She would even pick out insects that fell into water from trees and put them back on the ground.

Q2.Why do you think the Great God chose a girl like Sonsung to be the first weaver?

Ans2. The Great God said, 'Sonsung will make beautiful patterns on cloth because she loves Nature' and so he chose Sonsung to be the first weaver.

Q3. From where did Sonsung get the patterns for the cloth she wove?

Ans3. Sonsung got the patterns for the cloth she wove from Nature like the rivers, rainbow, and sunlight.

Q4. Why did the porcupine break the loom?

Ans 4. The porcupine broke the loom because he grew jealous of Sonsung.

Let's talk about these

Q1. Name at least five of Nature's valuable creations.

Ans1. Trees, animals, birds, water and air.

Q2. Good, clean air is one of Nature's treasures. In what ways do we harm Nature by polluting the air in cities and towns?

Ans2. By factories sending out smoke, having motor vehicles which give out exhaust gases, burning waste etc.

Q3. What are some of the ways in which we waste Nature's resources? How can we avoid this?

Ans3. By wasting water, polluting the air with smoke and dust, killing animals and cutting down trees. By carefully using Nature's gifts and stopping others from wasting them.

Q4. Think of three ways by which we can protect plants and trees.

Ans 4. We can protect plants and trees by not cutting them, watering them and by planting more plants and trees.

Q5. Think of three ways by which we can protect rivers and seas.

Ans 5. We can protect rivers and trees by not throwing plastic waste in water, by not pumping out factory waste into it and by avoiding oil spills.
