

Exercises

(A) Tick (✓) the correct answer.

1) Which of the following is not given in any specific order?

- a) Ordered list
- b) Unordered list ☒
- c) Numbered list
- d) None of these

2) Which tags are used to insert an image in a web page?

- a) and
- b) and
- c) and ☒
- d) <a> and

3) Which tag is a must to define items in any type of list?

- a) <il>
- b) ☒
- c) <ll>
- d) <ii>

4) We can use <imgsrc = "imagename" width= "pixels" > to

- a) Define a brief message
- b) Specify location of a web page
- c) Align the image
- d) Define width of image in pixels ☒

5) This attribute specifies the location of the file which is to be displayed on the web page.

- a) alt
- b) hspace
- c) src ☒
- d) crs

6) This attribute displays a brief message when the image is pointed to

- a) alt ☒
- b) hspace
- c) src
- d) width

7) This attribute sets the horizontal space between the image and the surrounding text

- a) alt
- b) hspace ☒
- c) src
- d) width

8) This attribute sets the vertical space between the image and the surrounding text

- a) alt
- b) vspace ☒
- c) src
- d) width

9) This is used to align an image in the center

- a) `<img align = "center" >` ☒* b) `<p align = "center" >` ☒* (*Both options are correct)
c) `<image align = "center" >` d) None of these

10) You can define the height of the image in the center

- a) alt b) hspace
c) height ☒ d) length

(B) Write (T) for true and (F) for false.

- 1) An Unordered list is enclosed between the `<ul>` and `</ul>` tags. True
2) An Ordered list is enclosed between the `<ul>` and `</ul>` tags. False
3) The `<li>` tag represents the list item. True
4) You cannot insert an image in a web page. False
