(see, eats, uses, lives, is, live, are, builds)

Title: Bulbul

The little bulbul is one of the most common Indian birds. We can see it in gardens and areas where most people live. It generally eats moths, caterpillars and berries. There are a number of common species of bulbuls. The red-whiskered bulbul or the *Pahari* bulbul lives in more

wooded areas. It builds its nest in small trees and shrubs. It uses small roots, fine twigs and grass.
