

Mission mangal

Starring -- Akshay Kumar

Vidya Balan

Mission mangal is not an action packed drama or thriller movie, but it is a science movie based on true event. the mission mangal through which satellite was sent to Mars by ISRO.

The story moves around a team of ISRO scientists , who were given a task to send a satellite to mars.

the film focuses over the traditional way of Thinking, which it stress over dependency over America and other European countries. but the hero Akshay Kumar is determined to prepare a Swadeshi satellite and rocket for the mission.

Rest is the Bureaucracy Red Taoism that create obstacles finally the mission is successful with the team work corporation and untiring efforts .

The movie is single line Story songs are not hit and are irrelevant.

the movie is good for young students it encourages them towards science and research work it also develop a feeling of nationalism and Pride as Indian

There are no action scenes vulgarity or so-called item songs , so it is recommended to watch with full family. I also recommend to take children along .

as a rating I would give it points out of 10.

-----+-----++-----

Life of Pi

Director Ang Lee

The movie Life of Pi is an adventurous drama the lead role of Pi Patel is played by Suraj Sharma the story is based on a bestseller novel by Yann Martel

The story moves in a play back when Pi was young boy he happens to be in the same boat with an Angry ferocious Bengal Tiger name Richard Parker

After Pi meet a ship Wreck the two Enemies rather we can say friends have to spend next 227 days in the same boat.

The movie tells how we can save our life by making best use of every available things it also tells us the importance of a companion in such a lonely journey no matter if it is a hungry Tiger

The story takes many turns and twist showing us vivid Marine world it's dangers , its beauty etc .

Viewers are seat locked for 2 hours every scene is important the film is action packed by one to one scenes of a boy and tiger.

the lead role Suraj Sharma is not an established, trained artist still he did a wonderful job . cinematography is best to show natural beauty

the film is recommended as an family entertainment.

I would rate it 4 out of 5 points.
